Dear Parents

Year 9 physics trip to the National Space Centre, Leicester

We will be taking all students in Year 9 to the National Space Centre, Leicester on Monday 11 June. The day will consist of a workshop (Our Earth under Threat), planetarium show and worksheet activities connected to the vast display of exhibits. This trip relates to the astrophysics topic on the new I/GCSE specification and is relevant to students whether they go on to do separate or double award science.

We will be leaving school by 8.45am by coach and returning by 6pm. Students will therefore be registered on the coach. If your daughter is absent on the day please contact Reception. Please note that we will not be back in time for any school buses therefore your daughter will need to be collected from school at 6pm. A packed lunch is provided by school.

The charge for this event is £24.50 and this will be added to the school bill. Students should dress as for a normal school day.

It is really important that we hold the very latest medical, dietary and parental contact information on all our students, especially for any external school visits. So if there are any amendments or additions, do please let us know. Thank you.

Yours faithfully

Mrs Jane Edwards
Head of Physics
